

ETH WEEKLY DEVOTIONAL

November 2024
WEEK FOUR

Living an Extraordinary Life

Next steps to living an extraordinary life.

PREPARING FOR THE HARVEST

When it comes to living an extraordinary life, you need to prepare for the harvest by doing the following:

- **Plow the Fields of Opportunity** (Search out new ways to get what you want out of life, and don't give up until you know exactly what you need to do.)
- **Sow Seeds of Success** (Once you've determined which opportunity to pursue, begin planting your seeds in that area. Crops don't grow without seeds first being planted, and the extraordinary life is a mere pipe dream if you don't sow some seeds in your field of opportunity.)
- **Watering and Weeding** (Nothing grows without water and your crop will get choked out if left unattended. To water your opportunities means they need to be managed. Commit to pulling up the weeds in your life that are sucking away the time from your day. Focus!

LIVING YOUR LEGACY

Your life is not for you. Your life is to be a blessing to other people! Your purpose in this life is to direct people to know the Savior; to worship God, to fellowship with other believers, and to minister to others around the world. You need to be a mentor to someone in need, to motivate the people around you, and become a person of influence. To live an extraordinary life means to leave a legacy of impact.

"Ye are the light of the world. A city that is set on an hill cannot be hid."

Matthew 5:14 KJV

PRAYER

Dear Lord, Thank you for choosing me. Help me to live the extraordinary life that you have given me as a witness to others and for YOUR glory. In Jesus name, Amen
